# Trinity College

This College has no medical, law, divinity or other professional school or department connected with it; but is intended to give a Liberal Education, adapted to fit young men to enter most advantageously upon the study of the Learned Professions after graduation. By a Liberal Education is meant a non-professional education conducted without reference to any future particular profession, calling or special pursuit on the part of the student in question, and designed not to make men specially clergymen, lawyers, physicians, soldiers, merchants or engineers, but so to train and educate the mental faculties as to put them into their most efficient condition, and to qualify a student to enter with success upon the study of any of the professions, or upon any other pursuit in life.

## EXPENSES

After Commencement, 1884, the amount of the Treasurer's bills each year will be as follows:—

Tuition (Christmas Term, \$40; Trinity Term, \$60),	-	-	-	-	\$100.00
Room-rent for each person,					
\$100.00, \$75.00, \$60.00, \$50.00, \$30.00, or (with scholarship),					25.00
Incidentals,	-	-	-	-	30.00
Heat,	-	-	-	-	12.50

Total, \$242.50, \$217.50, \$202.50, \$192.50, \$172.50, or - - \$167.50

The cost of board for 37 weeks at \$4.50 per week is \$166.50. To this must be added laundry charges, together with the expense of books, furniture, clothing, travel, and society fees, which vary according to the taste and habits of the student, and of which no estimate can be given.

## SCHOLARSHIPS

The amount of the Treasurer's bills can be considerably reduced to holders of scholarships. The scholarships vary in value, some remitting the charge for tuition, and others both the charge for tuition and that for room-rent in whole or in part, while others yield a cash income. These scholarships are not limited to those studying with a view to any special profession. The Toucey scholarships for students for the ministry, are awarded by the Faculty. For sons of clergymen of limited means there are special scholarships.

For holders of scholarships remitting the entire charges for tuition and room-rent, the Treasurer's bill is reduced to \$42.50; and the necessary expenses of such students, including board and other personal items, will not exceed \$250 or \$300 a year.

Application for any scholarship should be made in writing to the President by the parent or guardian, at or before the beginning of the term in which the student intends to enter.

#### EXAMINATIONS FOR ADMISSION

Two Examinations for admission are held at the College in each year: The first, in Commencement-Week; and the second, immediately before the beginning of Christmas Term.

In 1885 the order of Examinations will be as follows:—

JUNE.	SEPTEMBER.
Monday, June 22d, 2 P.M., Greek.	Tuesday, September 15th, 8:30 A.M., Greek; 2 P.M., Latin.
Tuesday, June 23d, 8:30 A.M., Latin; 2 P.M., Algebra.	Wednesday, September 16th, 8:30 A.M., Algebra; 2 P.M., English.
Wednesday, June 24th, 8:30 A.M., English. 2 P.M., Arithmetic and Geometry.	Thursday, September 17th, 8:30 A.M., Arithmetic and Geometry.

Examinations for admission will also be held on the specified days of June in New York, Philadelphia, Pittsburgh, Chicago, and San Francisco, and in other places, due notice of which will be given.

*Commencement is Thursday, June 25, 1884.*

#### ROOMS AND BUILDINGS

The new buildings were commenced in 1875. They are thoroughly drained, well ventilated and unsurpassed for convenience and comfort. In 1881 the Northam gateway was begun, and the western side of the great quadrangle is now completed. Easy access from the city is secured by means of street-cars running to the College grounds. An excellent athletic ground is provided for ball playing and other out door sports; there are also several tennis courts, and a gymnasium. The rooms are arranged so as to provide for two students rooming together, a common study and separate bed-rooms. They are heated by steam, and lighted by gas, and ventilation is secured by open fire places. Water is carried to every floor.

The site of the buildings is remarkable for its healthfulness.

#### CATALOGUES

Catalogues and Examination Papers may be had on application to the Secretary of the Faculty. For Scholarships and general information, application should be made to the President, George Williamson Smith, S.T.D.

## EDITORIAL

---

HEREWITH the class of '86 submits the thirteenth number of the IVY to the college and its friends. We have endeavored to chronicle the important college events of the past year and give a complete list of the fraternities and organizations represented in the college. Like our predecessors, we have not attempted to make the IVY a funny book, and have confined ourselves to a plain statement of facts without fancy or fiction. Following the example of '85, we omit the usual frontispiece, a picture of the board of editors, and as they, mourning the loss of a true friend and instructor, substituted his photograph, so we, actuated by the same feeling, substitute a photograph of our late much loved Professor Louis M. Cheesman, Ph.D., feeling sure that our readers would prefer his likeness to that of a few students.

Trinity seems once more to have entered upon an era of advance, and friends of the college are prophesying a glorious future. In the faculty two changes have occurred since the last issue of the IVY: Prof. Charles F. Johnson, formerly instructor, has been made professor of English and Rhetoric; and the Professorship of Physics, which for the past year and a half was so competently and faithfully filled by Prof. Louis M. Cheesman, was made vacant at the beginning of Trinity term by his much lamented death. The vacancy thus arising has been filled by Wm. Lispenard Rob, Ph.D., who is now acting as instructor in Physics.

At the beginning of the present college year, the scheme of studies was so changed by the corporation and faculty that the college now offers four distinct courses, and an extensive course in elective studies was added to the prescribed work.

The appearance of the campus has been greatly improved by the erection of two very handsome residences: one built by the college for the president; the other by Prof. Ferguson, for himself. A very complete chemical laboratory has been fitted up for the use of students pursuing the course in advanced chemistry.

In athletics the long looked for "brace" seems actually to have commenced. Two unusually successful college tennis tournaments were held during the past year. In the inter-collegiate tennis tournament held here last fall Trinity succeeded in securing second place in both singles and doubles. The foot-ball interest has been thoroughly revived and was represented by an energetic team, which if not highly successful, nevertheless made a beginning. Some much needed improvements have been made in the gymnasium, and it is used daily by many of the students. Strong hopes are entertained of putting a base-ball nine in the field next season which will do credit to the college. Owing to the presence of some new and remarkably promising material, the prospects of a good representation at the inter-collegiate athletic meeting were never so favorable as this year.

The commons, under the management of our Saratoga caterer, are flourishing, though there is ample room for improvement.

And now with a feeling of relief occasioned by the knowledge of work accomplished, coupled with a sigh of regret that our connection with the IVY is at an end, we intrust it to the class of '87.

## REQUIREMENTS FOR ADMISSION

### GREEK.

Grammar (Hadley or Goodwin).  
Xenophon: *Anabasis*, four Books.  
Homer: *Iliad*, three Books, with Prosody.  
Prose Composition (Jones or White: the exercises in the first half of the book).

History of Greece.

[The translation of average passages, not previously read, from Xenophon and Homer will be accepted as an alternative to the above-mentioned quantities in these authors.]

### LATIN.

Grammar.

Cæsar: *Gallie War*, Books I.-IV. inclusive; with questions on the subject-matter and on grammar.

Virgil: *Aeneid*, Books I.-VI. inclusive; with questions on the subject-matter and on Prosody.

Cicero: the Orations against Catiline, and that for the Poet Archias; with questions on the subject-matter and on grammar.

Prose Composition: Translation into Latin of a passage of connected English narrative, based upon some passage in Cæsar's *Gallie War*.

Roman History: Outlines, to the death of Marcus Aurelius (Creighton).

Ancient Geography.

Candidates will also be examined at sight upon average passages from Cæsar's works, from Virgil's *Aeneid* and Ovid's *Metamorphoses*, and from Cicero's Orations, with general questions on grammar, history, and antiquities, suggested by the passages set.

### MATHEMATICS.

Arithmetic, including the Metric System.

Algebra, through Radicals and Quadratic Equations, together with Proportion, Progressions, and the Binomial Theorem.

Plane Geometry.

### ENGLISH.

Each Candidate will be required to write a short English Composition, correct in spelling, punctuation, grammar, division by paragraphs, and expression, upon a subject to be announced at the time of the examination.

Each candidate will also be required to criticize specimens of English composition.

The works from which the subject of the composition will be chosen in the following years are:

1885. Shakespeare's *Macbeth* and *Merchant of Venice*; the first two books of Milton's *Paradise Lost*; Irving's *Sketch-Book*; George Eliot's *Silas Marner*; Dickens's *Tale of Two Cities*; Emerson's Essay on *Eloquence in Society and Solitude*.

1886. Shakespeare's *Julius Cæsar* and *Macbeth*; the first two books of Milton's *Paradise Lost*; Dickens's *Tale of Two Cities*; Scott's *Abbot*; Pope's *Rape of the Lock*; J. R. Lowell's *Vision of Sir Launfal*; Goldsmith's *She Stoops to Conquer*.

1887. Shakespeare's *Winter's Tale* and *Cymbeline*; George Eliot's *Romola*; Coleridge's *Ancient Mariner* and *Christabel*; Longfellow's *Evangeline*.

Instead of the text books mentioned above, any others, if fully equivalent, will be accepted.

# Courses of Instruction.

---

Since the last publication of the IVY the Corporation and Faculty have so reorganized the scheme of studies that the College now offers four Courses of Instruction, as follows:

- I. A COURSE IN ARTS.
- II. A COURSE IN LETTERS AND SCIENCE.
- III. A COURSE IN SCIENCE.
- IV. A COURSE IN LETTERS.

These Courses extend over four years with the exception of the Course in Science, which begins with the Sophomore year.

Students completing the Course in Arts will receive the degree of Bachelor of Arts. Students completing the Course in Letters and Science, or the Course in Science, will receive the degree of Bachelor of Science.

The Corporation has under consideration the degree which shall be granted to those students completing the Course in Letters.

Special students are also received, who are allowed to pursue their studies without reference to any degree.

One-fourth of the work in the last two years of the Course in Arts is in elective studies; in the other courses the ratio of elective to prescribed work is different in different terms.

# Secret Societies.

ARRANGED IN THE ORDER OF THEIR  
ESTABLISHMENT.

REV. J. H. BARBOUR, M.A.

## ASSISTANT LIBRARIANS

ROBERT THORNE,

C. G. CHILD.

## LIBRARY COMMITTEE

PRESIDENT SMITH,

MR. C. J. HOADLY,

PROF. HART.

The number of volumes now in the Library, exclusive of duplicates and unbound miscellaneous pamphlets, is 25,700. Since last commencement 1,500 volumes have been added to the Library, of which 1,200 volumes, comprising the Library of the late Rev. J. S. Purdy, '49, were the gift of E. L. Purdy, '84. The valuable Scientific Library of the late Prof. L. M. Cheesman, has also been donated to the college by his father, Dr. T. M. Cheesman, and several smaller gifts have been received from friends of the college at different times.

The books, purchased from the Alumni Library Fund, are chosen with special reference to furnishing the students with reading matter in connection with the various departments of instruction. The greater part of the volumes, purchased from this fund during the present year, were works on Political Economy. The records show that the Library is being used much more this year than ever before. Over 1,500 volumes have already been taken out, aside from the many books of reference, periodicals, etc., which are constantly consulted in the Library.

The following table shows that, in spite of the decrease in numbers, for the past seven years, there has been but little decrease in the use of the Library:

## LOUIS MONTGOMERY CHEESMAN.

---

PROF. CHEESMAN was born in the city of New York, in the month of November, 1858. His boyhood was spent in that city, and in 1874 he entered Columbia College, from whence he was graduated in 1878, with the degree of B.A.

After leaving college, he devoted several months to the study of Physiology and Anatomy, and then, having decided to make the study of Physics his life work, he went abroad to avail himself of the greater opportunities there afforded in the German Universities. In 1879, he entered the university of Würzburg, in Bavaria, as a student of Physics, under Kohlrausch, and in 1881, he obtained his degree of Doctor of Philosophy, "*magna cum laude*." His dissertation for this degree was upon "The Effect of Mechanical Hardening upon the Magnetic Properties of Steel and Iron."

Another year was spent in Berlin, where Dr. Cheesman continued his Physical studies under the celebrated Von Helmholtz, some of the results of which he embodied in a paper on "The Measurement of Rapidly Alternating Currents with the Galvanometer," a paper which was read for him by Von Helmholtz himself, before the Prussian Royal Academy of Sciences, and which attracted a good deal of notice when published in this country.

In the Spring of 1883, Dr. Cheesman was invited by the Trustees of Trinity College to the new Chair of Physics. He entered upon his duties in September of the same year, and displayed as a Professor the same qualities which had won him success as a student. He threw his whole soul into his work, perhaps beyond his strength. His health seemed to fail him in some degree during the autumn of 1884, and, in December last, he was seized with the illness which proved fatal. He left the college a week before the close of the Christmas term, and, after an illness of about a month, died, Jan. 11th, 1885, at his father's house in New York.

His death was felt by all to cause a very heavy loss to the College, and he is mourned by Faculty and by Students, not only as Professor, but as friend. He has left behind him the memory of brilliant gifts well used, of an active mind well trained, and also the memory of the helpful presence among us of one who was indeed "a brave, pure, true, Christian gentleman, unselfish, courteous, loving all and beloved by all."

*(From the Boston Globe.)*

"Since Mrs. Frank Leslie assumed the sole management, the brilliancy and success of the Leslie publications have won for them even greater popularity than they previously had. Her editorial ability is granted by the press, and is shown in the variety and excellence of the matter promptly placed by her before the public. It is her policy to produce at the earliest possible moment, regardless of expense, whatever of moment takes place in any section of this country. She relies for assistance upon a corps of the best artists, who, with pen and pencil, are scattered here and there to illustrate the most interesting scenes. Each issue of Frank Leslie's paper faithfully pictures the most important events, and a bound volume is an invaluable history of the year. Democrats owe this publication their fealty, for it is a powerful auxiliary, now as in the past, in their efforts for reform and good government. It has done them invaluable service, and will continue to do so."

---

Occupying the entire front, between 32d and 33d Streets, on Fourth avenue, and covering half the block in depth to Madison Avenue, its location is most central for transient visitors, and families desiring the quietude of an elegant home; contiguous to the most fashionable thoroughfares and with means of quick conveyance to all business centres. Within eight minutes' walk of the Grand Central Depot, from which trains depart and arrive from all points, and within five minutes' walk of either the West-side or East-side Elevated Railroads.

As a structure it is absolutely the only fire-proof hotel building in the United States, and its Grand Parlor, Eight Reception Rooms, Library, Dining Rooms, and five-hundred Sleeping Rooms, with connecting Bathing and Dressing Rooms, are by a most systematic method thoroughly ventilated.

Surrounding a spacious Court, with Fountain, Summer Garden, Balconies, and Electric Lights; all its interior Rooms are most pleasant, while outside ones on its upper floors give extensive views of the East River, Long Island and the suburbs.

Ventilating Shafts intersect at each corner of its seven wide corridors giving a continuous circulation of pure air throughout the building.

A number of Family Suites with connecting Bathing Rooms have been added this season.

The Hotel is conducted on the American System, and dispatches for accommodations will receive every attention.
